102	Rye	1st	Feeder	3-string	Fallon, NV	\$66.00

Ask anybody who has tried marketing their hay in the last 2 to 3 months and they will tell you it is not easy. Dropping milk prices, worlds of feed on the outside ranches, shortage of test hay and a surplus of dry cow hay along with lack of money makes it very hard to move hay. It is especially difficult to move hay in any volume as buyers are buying just what they need to get by month by month.
